Hello Mr. McCain,

I was provided with the guidance below from our Office of Compliance:

Hi Michael:

Thank you for the e-mail. Unfortunately, we are unable to provide a copy of the ASTM standard due to it having copyright restrictions. Mr. McClain would have to go to ASTM's website, astm.org, and purchase a copy of the standard.

Please let me know if you have any additional questions. Thanks.

Keysha

Compliance Officer

Keysha,

I hope that all is well with you.

This may need to go directly to OS, but I wanted to consult you first.

Jared McClain

Mr. McClain, called in reference to the: Swing Carrier Proposed Rule

He can view the text of the proposed rule on CPSC's site, but not the text of the proposed safety standard.

Is there some place where he can view that information?

Thanks in advance,

Michael June
